EDUCATION

National Institute of Technology, Silchar <i>Computer Science and Engineering; CGPA: 7.73</i>	Assam, India <i>Aug 2024 - Jun 2028</i>
Jawahar Navodaya Vidyalaya, Bengaluru Urban <i>HSC; (Percentage: 91.8%)</i>	Karnataka, India <i>Sept 2022 - May 2024</i>
Jawahar Navodaya Vidyalaya, Biswanath <i>SSC; (Percentage: 92.4%)</i>	Assam, India <i>Aug 2017 - Sept 2022</i>

PROJECTS

API Monitoring Platform <i>Node.js, Express.js, PostgreSQL, Prisma ORM, JWT</i>	Github Link <i>June 2026</i>
- Built a SaaS-inspired API monitoring platform that enables users to proactively detect API failures, track service availability, and receive automated downtime and recovery notifications. - Developed a background monitoring engine using Node-Cron and Axios that generated and stored 500+ health-check records, providing historical uptime metrics and response-time analytics through PostgreSQL. - Implemented incident management, email alerting, JWT-based security, and Swagger documentation using a relational architecture of 6 entities, delivering a production-style monitoring workflow from detection to resolution.	
2D Physics Simulator <i>C++, React.js, Node.js, Electron, CMake</i>	Github Link <i>April 2026</i>
- Developed a modular 2D physics simulation engine using C++ and OOP principles to model motion, collisions, waves, oscillations, and force-based systems. - Integrated C++ with React.js, Node.js, and Electron to deliver an interactive cross-platform desktop GUI. - Configured and managed builds using CMake, improving project scalability, modularity, and compilation efficiency.	
Agroww - Smart CropCare Platform <i>MongoDB, Express.js, React.js, Node.js</i>	Project Link <i>Jan 2026</i>
- Implemented a full-stack MERN application with 5+ core features including authentication, dashboards, crop recommendations, and weather alerts. - Developed a scalable frontend and backend handling 50+ data records, ensuring efficient data management using MongoDB Atlas. - Deployed the application on Render with secure API communication, achieving seamless client-server integration and reduced latency.	

TECHNICAL SKILLS

Languages:	C/C++, JavaScript, SQL, HTML5, CSS3
Frameworks & Technologies:	React.js, Node.js, Express.js, Prisma ORM, LangChain, REST APIs, JWT Authentication
Databases:	PostgreSQL, MongoDB, MySQL
Tools & Platforms:	Git, GitHub, Postman, Swagger/OpenAPI, VS Code, Render, Vercel
Core Concepts:	Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Computer Networks, Distributed Systems, MVC Architecture, Asynchronous Programming
Software Engineering:	API Design, Database Design, Authentication & Authorization, Version Control, Debugging, Code Optimization, Documentation
AI & LLM:	Prompt Engineering, LLM Fundamentals, LangChain
Testing & Deployment:	API Testing (Postman), Deployment, Environment Configuration
Soft Skills:	Problem Solving, Team Collaboration, Communication, Leadership

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode** [Profile](#)
Max Contest Rating: **1782**; Solved **500+** problems; Ranked in the **Top 8.98%** of contest participants.
- **CodeChef** [Profile](#)
Achieved **2 stars** with Max Contest Rating : **1422**;
- **AlgoTech Fellowship (ATF)** [Credential](#)
Qualified as a **Stage 2 Candidate**; Ranked among the **Top 8%** nationwide out of **250,000+** candidates.
- **Full Stack Web Development Certification (Udemy)** [Credential](#)

POSITION OF RESPONSIBILITY

Computer Science Society, NIT Silchar

Onsite

Dev-Wing Member (Full-Time)

Sep 2025 - Present

- Collaborated in a development team to build and maintain web applications, improving system functionality and user experience.
- Contributed to feature development, debugging, and testing, ensuring scalable, high-quality, and maintainable code.
- Participated in code reviews and technical discussions, enhancing team productivity and enforcing coding best practices.

EXTRACURRICULAR ACTIVITIES

National Cadet Corps

Assam, India

Cadet

Sept 2024 - Present

- Participated in community service initiatives including blood donation drives, cleanliness campaigns, and environmental awareness programs.
- Completed structured military training and field exercises, demonstrating discipline and effective decision-making under pressure.
- Led group drills and coordinated training sessions, improving team coordination and execution efficiency.

INTERESTS

- UI/UX Design
- Technical Writing and Content Creation
